

SALOOJA BROTHERS PRIVATE LTD.

Category: Bunsen Burner Various

Cat. No.	Product	Description
3026	Bunsen burner "Parco"	Same as Cat. No. 3025 but for L.P. gases (bottled gas). Individually packed.
3027	Bunsen burner "Parco"	Nickel-plated brass tube, 13 mm diameter, with an adjustable non-removable screw type air regulator and rifled gas inlet tube tapered from 9 mm outer diameter, on heavy stable metal base. Synthetic stove enamelled finish. For coal or petrol/air gas. Individually packed.
3028	Bunsen burner "Parco"	Same as above but for L.P. gases (bottled gas). Individually packed.
3028	Bunsen burner with stop-cock "Parco"	Same as Cat. No. 3027 but for L.P. gases (bottled gas). Individually packed.
3029	Bunsen burner with stabiliser cap "Parco"	Lacquered brass tube 12 mm diameter with an adjustable screw type air regulator and rifled gas inlet tube 9 mm outer diameter, on heavy stable metal base stove hammer finish. The burner is provided with gas regulator, screw type to regulate the intensity of the flame. For L.P. gases (bottled gas). Individually packed.
3031	Flame fast bunsen burner "Parco"	Nickel-plated brass tube 13 mm diameter with rotatable non-removable air regulator and rifled gas inlet tube tapered from 6 mm to 11 mm outer diameter, on stable metal base stove hammer finish. For coal or petrol/air gas. Individually packed.
3032	Flame fast bunsen burner "Parco"	Same as above for L.P. gases (bottled gas). Individually packed.
3033	Flame fast bunsen burner "Parco"	Same as 3031 but provided with gas regulator screw type to regulate the intensity of the flame. For L.P. gases (bottled gas). Individually packed.
3045	Teclu burner "Parco"	Nickel plated brass tube 12 mm diameter with conical mixing section and screwed disc to regulate air intake, rifled gas inlet tube 9 mm outer diameter, on heavy stable metal base synthetic stove enamelled finish. Individually packed.
3046	Teclu burner 'Parco'	Same as above but for L.P. gases (bottled gas). Individually packed.
3050	Meker burner "Parco"	Lacquered or nickel-plated brass body with rotatable air regulator. Metal gauze 25 mm diameter produces an evenly aerated flame of uniform intensity, rifled gas inlet tube 9 mm outer diameter, on heavy stable metal base stove hammer finish. Individually packed.
3051	Meker Burner "Parco"	Same as Cat. No. 3050 for L.P. gases (bottled gas). Individually packed.
3053	Meker burner, high temperature "Parco"	Injector-shaped brass tube with brass grid produces short wide flame of uniform intensity, grid depth prevents flashback. With needle valve gas regulator and adjustable air ports, rifled gas inlet tube tapered from 6 to 11 mm on heavy stable metal base synthetic stove enamelled finish. The tube and cap is in chromium plated. For natural gas or L.P. gases. Grid top diameter 40 mm and overall height 220 mm. Individually packed.
3054	Meker burner high temperature "Parco"	Same as Cat. No. 3053 but for use with artificial gas. Grid top 30 mm and overall height 190 mm. Individually packed.
3055	Semi micro burner "Parco"	Nickel plated brass tube 5 mm diameter with non-removable screwed type air regulator. Individually packed.

	Bunsen burner Various & centrifuge & Shakers	
Cat.No.	Item	Description
3015	Spirit burner (spirit lamp)	Aluminium sheet die pressed, Capacity - 60ml. with woven wick in metal holder, screw on cap. Pack of 10 pieces
3016	Spirit burner (spirit lamp)	Same as above but capacity 120 ml.
3018	Spirit burner (spirit lamp)	Brass , chromium plated, die pressed, Capacity - 120ml. with woven wick in metal holder, brass cap. Pack of 10 pieces
3020	Spirit burner (spirit lamp) 'Parco'	Aluminium alloy moulded jointless, Capacity - 125ml. with woven wick in metal holder, with aluminium alloy moulded cap.
3025	Bunsen burner 'Parco'	Nickel-plated brass tube 11 mm diameter with rotatable non-removable air regulator and riffled gas inlet tube 9 mm outer diameter, on stable metal base stove hammer finish. For coal or petrol/air gas.
3200	Centrifuge, hand driven 'Parco'	Single speed, hand-driven machine consisting of a substantial cast base enclosing a steel pinion and worm drive fitted with a ball-thrust race. Removable crank handle and one thumb screw clamp. Head of pressed steel with captive true union rings accommodates two 15 ml buckets. Complete with two buckets and two glass centrifuge tubes. Stove hammer finish.
3201	Centrifuge hand-driven 'Parco'	Same as above to accommodate four 15 ml buckets , complete with four buckets and four glass centrifuge tubes.
